

ACBLED

19" LED strip for rack

## DESCRIPTION

The 19" LED strip is a lighting device designed for standard patch panels and network cabinets. It is easily installed on 19" rails, providing bright and even light for effective equipment management.

## ADVANTAGES

- Energy savings: The motion sensor allows the LED strip to light up only when someone is present, thereby reducing energy consumption.
- Easy installation: The LED strip is easily installed in 19-inch racks and operates automatically, eliminating the need for a manual switch.
- Operational efficiency: It provides uniform and adequate
