

JLCALCA10DOS2

Duplex OS2 LC APC/LC APC fiber optic
jumper 10m

DESCRIPTION

MMC duplex LC-APC / LC-APC fiber optic jumpers are made using 3mm diameter zipcord cables and are connected to connectors with a ceramic ferrule. Each connector is equipped with a different color boot to make them easy to identify, as well as to maintain and extend the cord's performance levels. A label with a unique batch number is attached to the cable to ensure its traceability and quality.

ADVANTAGES

Easy installation: LC APC/LC APC connectors adaptable for all APC fiber optic connectors.

Test report included.

Duplex cords and duplex clip supplied to ensure the correct polarity

CONSTRUCTION & TECHNICAL PERFORMANCE

Product Type	JLCALCAxxDyyy
Product Length	10 m
Available Colors for Optical Connector	Green
Cable Diameter (mm)	3

ELECTRICAL CHARACTERISTICS

Optical Performance	OS2
---------------------	-----

TRANSMISSION CHARACTERISTICS

Test Report	oui
-------------	-----

MECHANICAL CHARACTERISTICS

Bending Radius	3,8cm
Tensile Strength (N)	70
Polishing Type	APC / APC

ENVIRONMENTAL CHARACTERISTIC

RoHS Compliance	oui
-----------------	-----

ADDITIONAL INFORMATION

Product Packaging	100% biodegradable bag
-------------------	------------------------
