

JLCLC2DOS2

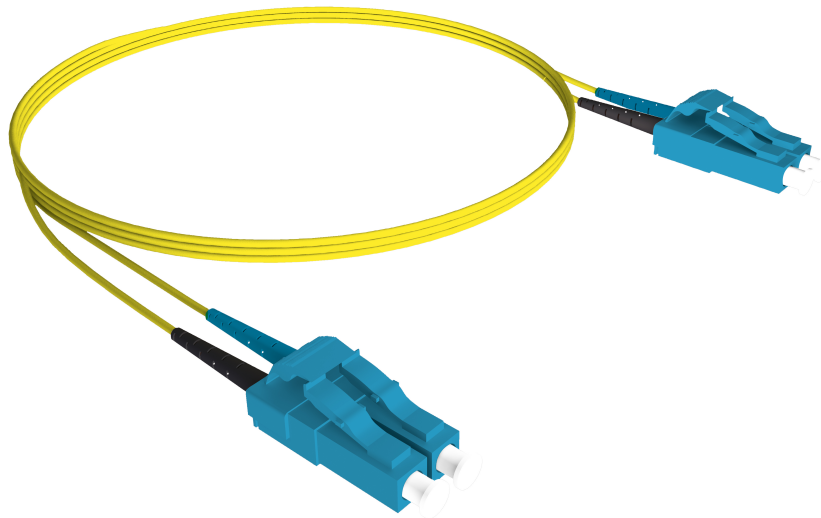

## Duplex LC/LC OS2 fiber optic jumper - 2m

### DESCRIPTION

MMC duplex LC / LC fiber optic jumpers are made using 3mm diameter zipcord cables and are connected to connectors with a ceramic ferrule.

Each connector is equipped with a different color boot to make them easy to identify, as well as to maintain and extend the cord's performance levels.

A label with a unique batch number is attached to the cable to ensure its traceability and quality.

### ADVANTAGES

Test report included,  
Duplex clips supplied to ensure the correct polarity

**CONSTRUCTION & TECHNICAL PERFORMANCE**

|                                        |             |
|----------------------------------------|-------------|
| Product Type                           | JLCLCxxDyyy |
| Product Length                         | 2 m         |
| Available Colors for Optical Connector | Blue        |
| Sheath Type                            | LSZH        |
| Cable Diameter (mm)                    | 3           |

**ELECTRICAL CHARACTERISTICS**

|                     |     |
|---------------------|-----|
| Optical Performance | OS2 |
|---------------------|-----|

**TRANSMISSION CHARACTERISTICS**

|             |     |
|-------------|-----|
| Test Report | Yes |
|-------------|-----|

**MECHANICAL CHARACTERISTICS**

|                      |           |
|----------------------|-----------|
| Bending Radius       | 3,8cm     |
| Tensile Strength (N) | 70        |
| Polishing Type       | UPC / UPC |

**ENVIRONMENTAL CHARACTERISTIC**

|                 |     |
|-----------------|-----|
| RoHS Compliance | Yes |
|-----------------|-----|

**ADDITIONAL INFORMATION**

|                   |                        |
|-------------------|------------------------|
| Product Packaging | 100% biodegradable bag |
|-------------------|------------------------|
